

Introduction to Equations Homework

Compare and Contrast

How are expressions and equations similar? What are the differences between expressions and equations? Explain in 2-4 sentences.

Expression or Equation?		
Distinguish between expressions and equations by writing checking the appropriate box.		
Numbers, Phrases, or Sentences	Expression	Equation
$6 + 8$		
Three times a number is 9		
$4x = 200$		
5 is the quotient of 30 divided by 6		
$75 - 12 = 63$		
8 times a number divided by 2		
$10 \div k$		
45 is equivalent to 9 times 5		
9		
$y = 1$
