

Name _____ Class _____

Write what you would need to know on each of these; perimeter or area.

1. You are fencing in your backyard, how much fencing do you need?
2. You need to know how much wood it will take to make a picture frame. You need to know the _____ of the picture you are framing.
3. You are carpeting your basement, how much carpet do you need?
4. Putting lawn in your back yard, how much sod should you buy?
5. Wallpapering a wall in your bedroom, how much wallpaper do you need?
6. If you are tiling around a swimming pool, how do you know how much tile you will need?
7. Painting a your bedroom door, how much paint will you need.

Draw a picture on the backside of this page that includes:

7 orange triangles
4 red octagons
2 black squares

5 blue parallelograms
3 purple trapezoids
6 brown rectangles

Use a ruler for the sides of your shapes (You want them straight and you may need them the same size.) Your shapes have to be the color indicated but you can color the rest of your picture using any other colors. It must be a complete picture not just a page of shapes. 😊
